

MICHELLE KELLY

+1 (647) 673-9977 | michelle.kelly@queensu.ca | michellekelly.dev | Toronto, ON

EDUCATION

Queen's University <i>Bachelor of Computing, Specialization in Software Design</i> ▪ Relevant Courses: Computer Architecture, Data Structures, Software Specifications, Logic for Computing Science (A+) ▪ Awards/Scholarships: QMIND Next-Generation Award, Magna International Give Back Awards, CFUW Trust Awards	Kingston, ON 2024 – 2029
--	------------------------------------

PROFESSIONAL EXPERIENCE

York Region <i>Technical Support Assistant</i> ▪ Engineering an automated workflow using Microsoft Power Automate to migrate 600+ documentation files into a centralized IT Wiki, saving an estimated 150+ hours of manual data entry and streamlining team knowledge access ▪ Orchestrated the lifecycle management of 100+ enterprise devices and resolved ~30 monthly IT support tickets, ranging from routine OS reimaging to the critical diagnosis and restoration of 3 non-standard dental X-ray machines under pressure	Newmarket, ON May 2026 – Present
---	--

Carbon Cred <i>Applied Data Analyst</i> ▪ Analyzed high-volume datasets of geographic locations and temporal timestamps to identify anomalous user activity patterns ▪ Improved carbon credit classification logic by analyzing behavioral trends to successfully flag >60% of user data as fraudulent	Calgary, AB Mar 2024 – Aug 2024
--	---

Private Clients <i>Python Programming Tutor</i> ▪ Designed and led interactive virtual lessons to teach fundamental Python programming, providing intensive 1-on-1 mentorship and maintaining a 100% client retention rate over an 8-month continuous engagement ▪ Developed project-based curriculums that enabled the student to independently build and deploy games using Pygame	Toronto, ON Dec 2022 – Jul 2023
--	---

EXTRACURRICULAR ACTIVITIES

QMIND <i>Product Manager</i> ▪ Leading a 6-person technical team to research and evaluate machine learning models optimized for the detection of phishing attacks specifically targeting vulnerable populations ▪ Directing product strategy, research scoping, and agile timelines to bridge theoretical AI with real-world applications	Kingston, ON Jun 2026 – Present
<i>Design Team Member</i> ▪ Collaborated within a team, utilizing peer programming and architectural reviews to drive a research project to publication	Oct 2024 – Apr 2025

Canadian Undergraduate Conference on AI <i>Conference Chair</i> ▪ Spearheading the strategic planning and execution of the 2027 conference, directly managing an executive team of 12 directors to align timelines, budgets, and operational logistics ▪ Driving partnership outreach and organizational growth strategies to deliver a multi-day event to an expected 450+ attendees	Toronto, ON Jun 2026 – Present
<i>Marketing Director</i> ▪ Directed marketing strategy across multiple platforms, launched an AI-focused newsletter driving a 288% subscriber increase, boosting awareness and ticket sales for Canada's largest undergraduate AI conference with 400+ attendees	Jun 2025 – May 2026

PROJECTS ([GitHub](#))

AI Receptionist <i>Python, TypeScript, Next.js/React, FastAPI, Supabase</i> ▪ Engineered and deployed a production-ready AI voice receptionist SaaS for home service fleets, launching an early-access pilot program to capture missed emergency calls and recover lost dispatch revenue ▪ Architected a full-stack solution featuring a Next.js/Supabase dashboard and a Python/FastAPI LLM voice pipeline, leveraging webhooks to parse live-call transcripts, triage emergencies, and automatically route structured lead tickets to dispatchers	Newmarket, ON May 2026
---	----------------------------------

Instrument-Specific Symbolic Music Genre Transfer Model <i>Python, PyTorch, CUDA</i> ▪ Developed a hardware-accelerated deep learning model (PyTorch/CUDA) for symbolic music genre transfer, architecting an LSTM-based Variational Autoencoder and adversarial classifier while refining KL divergence loss ▪ Co-authored a research paper published in CUCAI Proceedings and presented findings to industry leaders at AWS and CUCAI	Kingston, ON Apr 2025
---	---------------------------------

ADDITIONAL INFORMATION

- **Technical Skills:** Python, TypeScript, JavaScript, Java, C#, HTML/CSS, React, Next.js, FastAPI, PyTorch, Unity, Tailwind CSS, Git, Supabase, MongoDB, Firebase, Linux/Bash, Power Automate
- **Interests:** Hiking, music, running, game development
- **Other Awards:** OFSAA qualifier, national steeplechase championships qualifier, Toronto marathon finisher
